Nutrien is the world's largest retailer of agricultural inputs and services,

playing a major role in helping farmers increase food production in a sustainable, responsible and safe way.

We produce and distribute approximately 27 million tons of potash, nitrogen and phosphate worldwide. With this capacity and our leading agricultural retail network, we are well positioned to meet the needs and demands of our customers.

Nutrien also operates the leading global agricultural retail network – Nutrien Ag Solutions – which provides crop inputs, services and solutions to farmers in more than 2,000 locations in North America, South America and Australia.

Global earnings in 2022

¹ This is a non-IFRS financial measure. See the "Non-IFRS Financial Measures" section of Nutrien's Management's Discussion & Analysis ("MD&A") dated February 17, 2022 for the year ended December 31, 2021, which information is incorporated by reference herein. Such MD&A are available on SEDAR at www.sedar.com.

In Latin America

we operate in four countries:

There are 200 commercial units including stores, agrocenters and Experience Centers.

We have 4 fertilizer mixers and 5 industrial plants.

In Brazil

We are building the largest and best agricultural solutions platform.

The supply chain is well structured and strategically operated, but there is still an area to be explored: distribution. Seeing this opportunity and the potential of the domestic market, Nutrien decided to operate in Brazil to offer a new retail platform for crop inputs and services in order to serve farmers.

Investment and development in innovative digital solutions for agribusiness, offering technology, services and a differentiated customer experience.

Our aim is, through carefully selected acquisitions and goals, to leverage our sales in the states of São Paulo, Minas Gerais, Goiás, Espírito Santo, Rio de Janeiro, Mato Grosso do Sul, Mato Grosso, Bahia, Tocantins, Maranhão, Pará, Rondônia and Acre, and expand our operations to states where we are not present yet.

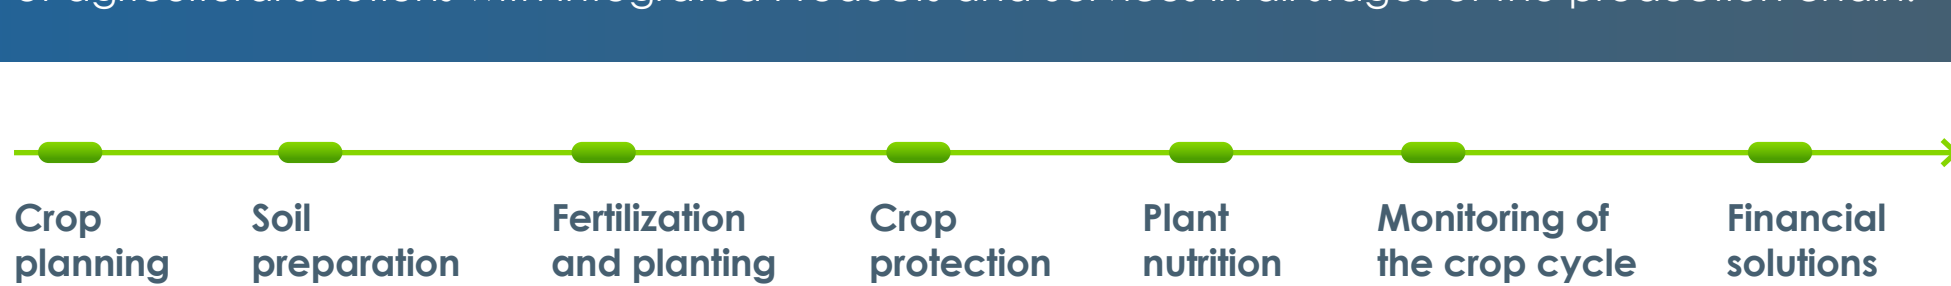

operations in Brazil

- Sales of around US\$ 8 billions*.**
